EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Downs (Reg. 48,222) on October 24, 2007.

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Figures to properly cross hatch as shown on page 600-114/115 of the MPEP based on the material of the part. See also 37 CFR 1.84(h) (3) and MPEP § 608.02. Only parts shown in section to be cross hatched. Different elements in PLAN view may be shown by different shading. For example, cross hatching pattern is not required for figure 17, which is a PLAN view. However, cross-hatching pattern may be shown for figure 8, which is a sectional view.

In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

3. Claims 3, 4 and 7 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 13, 14 and 15, directed to the process of making or using an allowable product, previously withdrawn from

consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on October 5, 2005 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
